

## Space Training Questions:

- What is the closest planet to the Sun? (*Mercury*)
- Is planet Neptune bigger than Earth? (*Yes*)
- Does the Sun orbit the Earth? (*No*)
- What is the name of the first satellite sent into space? (*Sputnik*)
- Have humans have ever set foot on Mars? (*No*)
- Can humans breathe normally in space as they can on Earth? (*No*)
- Have humans have ever set foot on Mars? (*No*)
- Is the Sun a planet or a star? (*Star*)
- What is the name of the 2nd biggest planet in our Solar System? (*Saturn*)
- What planet is famous for beautiful rings that surround it? (*Jupiter*)
- What planet is known as the Red Planet? (*Mars*)
- Who was the first person to ever walk on the Moon? (*Neil Armstrong*)
- What's the name of the force that pulls us toward Earth? (*gravity*)
- In which galaxy is the Earth located in? (*Milky Way Galaxy*)
- What's the name of a place with telescopes and other scientific equipment to research space and astronomy? (*observatory*)
- What's the name of NASA's most famous space telescope? (*Hubble*)
- What's the name of the probe and it's lander which landed on a comet 67P/Churyumov-Gerasimenko? (*Rosetta and Philae*)
- Can humans grow food in the space station? (*Yes*)
- Which were the first animals in space? (*Fruit flies*)
- What is the name of an American government space agency? (*NASA*)
- What are the name of some of the American private spaceflight companies? (*SpaceX, Blue Origin, Virgin Galactic*)
- What is the name of the team on earth that directs and assists the space flights? (*Mission Control Center*)
- What is rocket fuel made of? (*Petroleum in combination with liquid oxygen*)
- Name all eight planets in our Solar System. (*Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, Neptune*)
- Which planet in our Solar System is entirely inhabited by robots? (*Mars*)
- What is the hottest planet in our solar system? (*Saturn*)
- What do you call a path of a celestial object or space craft around a star, planet or moon? (*Orbit*)
